The New Modernism

Collection 2022

Tonelli design si propone con una collezione 2022 versatile e contemporanea. Prodotti con un proprio carattere individuale legato a quella cultura del design che caratterizza la storia del marchio, ma pensati per il loro uso nella casa attraverso perfette combinazioni e relazioni. Prodotti facenti parte di un modello di casa personale, attuale ed originale e, allo stesso tempo, grandi protagonisti dello spazio.

Con la collezione 2022 Tonelli design interpreta l'identità del vetro attraverso nuove forme e relazioni tra materie che suggeriscono un nuovo modello di casa, ciò che riteniamo essere la casa del vivere contemporaneo, lo specchio dei nostri tempi. Purezza ed essenzialità, trasparenze e sovrapposizioni, ma anche legno e metalli, tessuti e pelli, giochi di forme contrapposte, inaspettate, eclettiche, oggetti di forte personalità che possono accompagnarci nel tempo, lontani dagli stereotipi.

La collezione The New Modernism si arricchisce di nuovi protagonisti coinvolgendo in questo lavoro di ricerca quei prodotti già in gamma che, come tutta la collezione, passando attraverso spazio e tempo ci portano alla nostra attuale interpretazione del vivere e dell'arredare.

Collection 2022

Tonelli design presents the new 2022 collection, versatile and contemporary. Products with an individual nature linked to that design culture that distinguishes the history of the brand, but thought for their utilization inside homes through perfect combinations and relations. Products that are part of a personal home model, current and original and, at the same time, great protagonists of the space.

With collection 2022 Tonelli design interprets the identity of glass through new forms and relations between materials that suggest a new home model, what we think of as the house of modern living, the mirror of our time. Pureness and essentiality, transparencies and layers, but also wood and metals, fabrics and leathers, plays of opposing, unexpected, eclectic forms, objects of great personality that can accompany us through the passing of time, far away from stereotypes.

The collection The New Modernism grows with new protagonists including in this research effort those already existing products that, as the entire collection, passing through space and time bring us to our current interpretation of living and furnishing.
