# Timeless Designs

al2

## Welcome to al2 World

al2 is a design brand with the main purpose to produce unique, high-end furniture while constantly exploring new horizons and bringing new, innovative ideas to the world. A family business, made in Greece, that wishes to have a contribution to the design universe with its ideas and philosophy, but also to introduce the high-end design to its own land.

The certified production of the company, with more than 30 years of history, the awarded designers and the experienced executives in the fields of international markets and communication, are the 3 main pillars of al2.

The company is committed to produce design pieces with the use of high-quality materials and attention to detail, while showing to the world what the international design has to offer. The combination of artisanship and machinery is what makes each product unique. Design for al2 is not just the production of a beautiful item, but also a targeted research and the everyday expressions of feeling and passion.

Every al2 piece has a distinctive personality that elevates and gives a special character to a space. They have a design that never fades out while maintaining its particularity .

Every piece of furniture is produced with care, passion and attention to detail. They have a versatile and timeless character, while at the same time expressing the brand's motto **"art for living"**. Elegance, finesse and uniqueness are deeply rooted in the brand's DNA and are evident across all its elements.

**The ms modular system creates a strict and architectural landscape while satisfying even the most demanding storage needs**

**Colour is an integral part of our design path, a path that leads us to the exploration of new horizons and to the creation of impeccable items**

**Innovation**

**Finesse**

**Sophistication**

**Excellence**

**Elegance**

**Craftsmanship**

All our actions, our ways of designing and our ways of producing, lay under the umbrella of **“art for living”** This is the message that sums up our value for great living, our willing to produce furniture that will last in time and that will contribute to the creation of more personal and authentic atmospheres. It is all about the experience someone gets when he feels the products, when he enters the **al2 world**.

**The unique spaces,  
unique products and  
unique materials fills us  
with distinctive  
experiences**

## Timeless designs

It is the design that matters and that makes a product last in time. And in design we include the man, the process, the materials, the colours, and ultimately the passion and desire for creation.

**The human element is of great significance for al2. We embrace and combine different forms of art, in an effort to express our artistic concerns and eventually to turn these concerns into beautiful items.**

**al2, art for living**
